Target Market

Customers in the target market are customers who want to:

- finance the acquisition or construction of residential property to live in prior to the sale of their current residential property;
- mortgage the property by way of security;
- borrow between \$50,000 and \$2,000,000;
- not be required to make any repayments to the bridging loan during the bridging period ;
- pay off or reduce the balance of the bridging loan upon sale and settlement of the existing residential property; and
- have the loan interest rate variable.

Customers must be 18 years of age or over.

Customers may have already owned real property and obtained a home loan, or may be buying a property and obtaining a home loan for the first time. Customers will therefore have differing levels of knowledge and experience with home loans including, potentially, very little or no such experience.

Customers are not in the target market if they:

- require bridging finance beyond a 12 month term;
- Do not own a current residential property, sell their existing residential before they purchase their new or do not plan on selling their existing residential property;
- Are purchasing a new residential property for investment purposes
- want a fixed interest rate or a split loan option.
