Working together to create a sustainable difference, now and into the future.

Beyond Bank is a 100% customer-owned bank that exists to do good.

We have been creating and returning outstanding value for and with our customers and their communities for over 60 years — we live by our values of customer-first, mutuality, community, integrity and sustainability.

As a sustainable business, we aim to help our customers, our people and their communities achieve social, economic and environmental sustainability now and into the future.

We believe together we can create a better tomorrow, beyond today.

A force for good.

Our commitment to sustainability is demonstrated by our B Corporation (B Corp) certification.

As the first bank in Australia to be B Corp certified, we're proud to be part of a global movement that uses business as a force for good.

Our certification means we have the highest standard of overall social and environmental performance, transparency and accountability.

By measuring what matters, we can continue to create a positive impact for people, profit and planet.
